Interaction and Technologies

Using Distance Education Technologies

With the **primary** technology you're planning to use for your distance education course, list some interactive strategies you could use to involve students.

_____

Using the **secondary** technologies you've determined, list some interactive strategies you could use with these technologies.

_____

So Which IS Best for You?

Based on these technology descriptions, make a list of the technologies that you envision using in your course. Which would be the technology you would use for primary distribution of instruction? Which technologies would be used for supplemental purposes and how?
